

PMO Retrospective

▶ A Look Back at 2019

▶ 2019 Kicks Off

PMO Trends at the Beginning of 2019

- **Project data analytics**
- **Making the case for automation**
- **More coaching skills needed**
- **PMO Competency Framework and Assessments**
- **Storytelling and the visualisation of data**
- **Creating PMO principles for your PMO**
- **Digital PMO**
- **Metrics and measures for the PMO**
- **Pastoral care to meet the personal, social (wellbeing) and development needs of PMO staff and the wider organisation.**
- **Utilising PMO skills but not in a PMO role**

Things we want the PMO to START doing

Being more flexible

Help the team focus on the end game

Be a key influence in strategy

Set up effective and valuable services and products

Be on top of things

Get better oversight across the whole portfolio

Be empowered to contribute to portfolio management

To be less distant

Communicate what they do to the organisation

Care about the benefits post project

Adapt a more agile mindset

More coaching and training

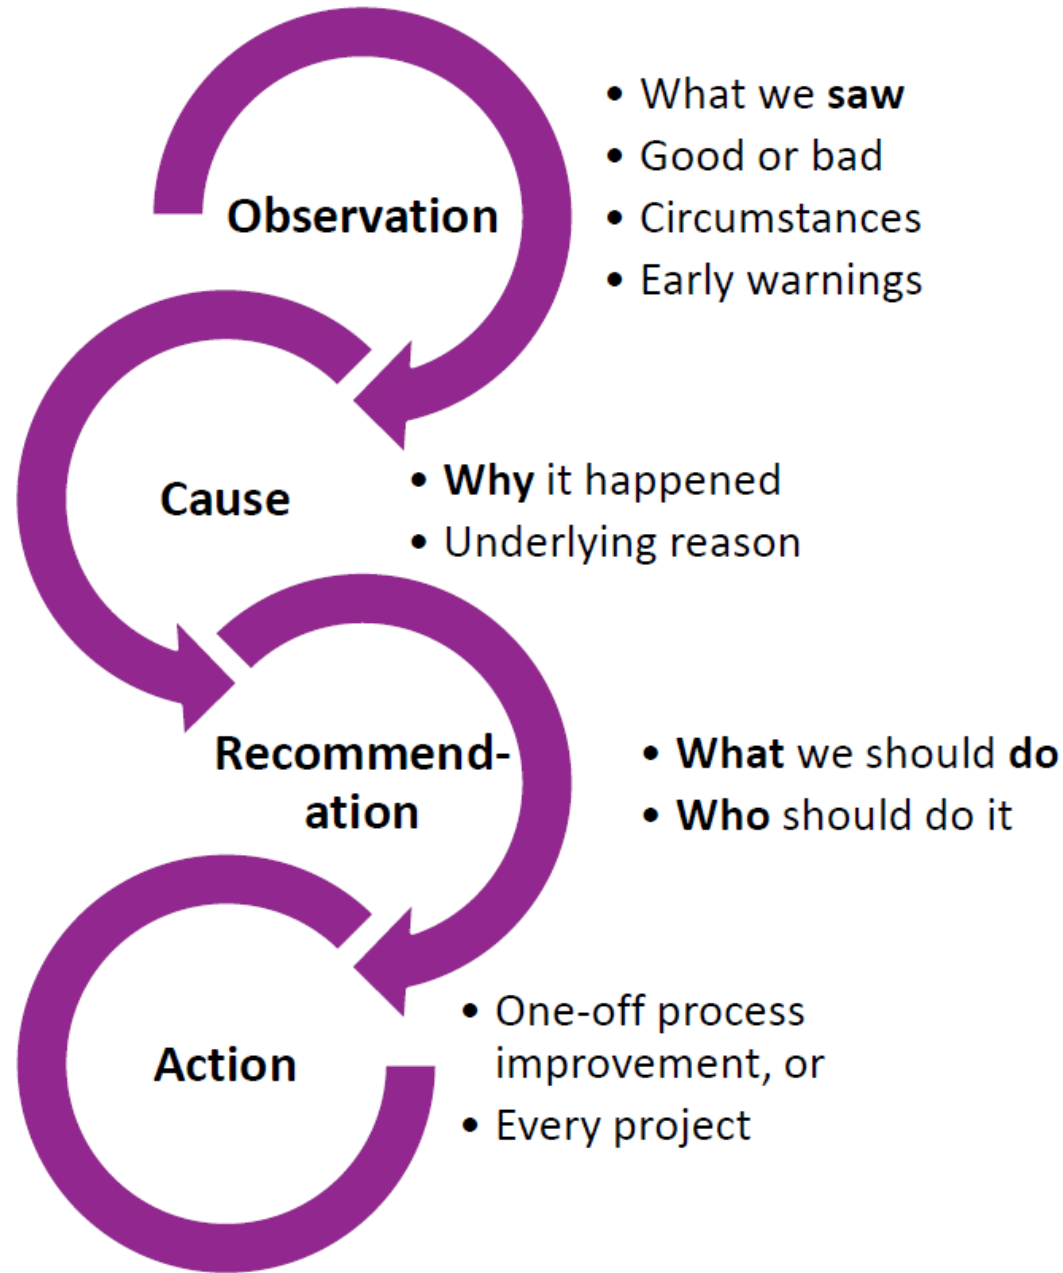

Be more directive in managing the programme

Get to know them . . .

Portfolio build, prioritization, analysis and reporting	Programme and project set up and closure	Stakeholder engagement and communications	Planning and estimating
Capacity planning and resource management (including demand management)	Benefits Management	Performance monitoring	Monitor and review
Reporting	Risk Management	Issue Management	Change Control
Finance	Commercial	Quality assurance	Information management
Transition management	Secretariat	Standards and methods	Internal consultancy
	Organizational learning and knowledge management	People and skills	

We need to capture lessons effectively

Agile Frameworks

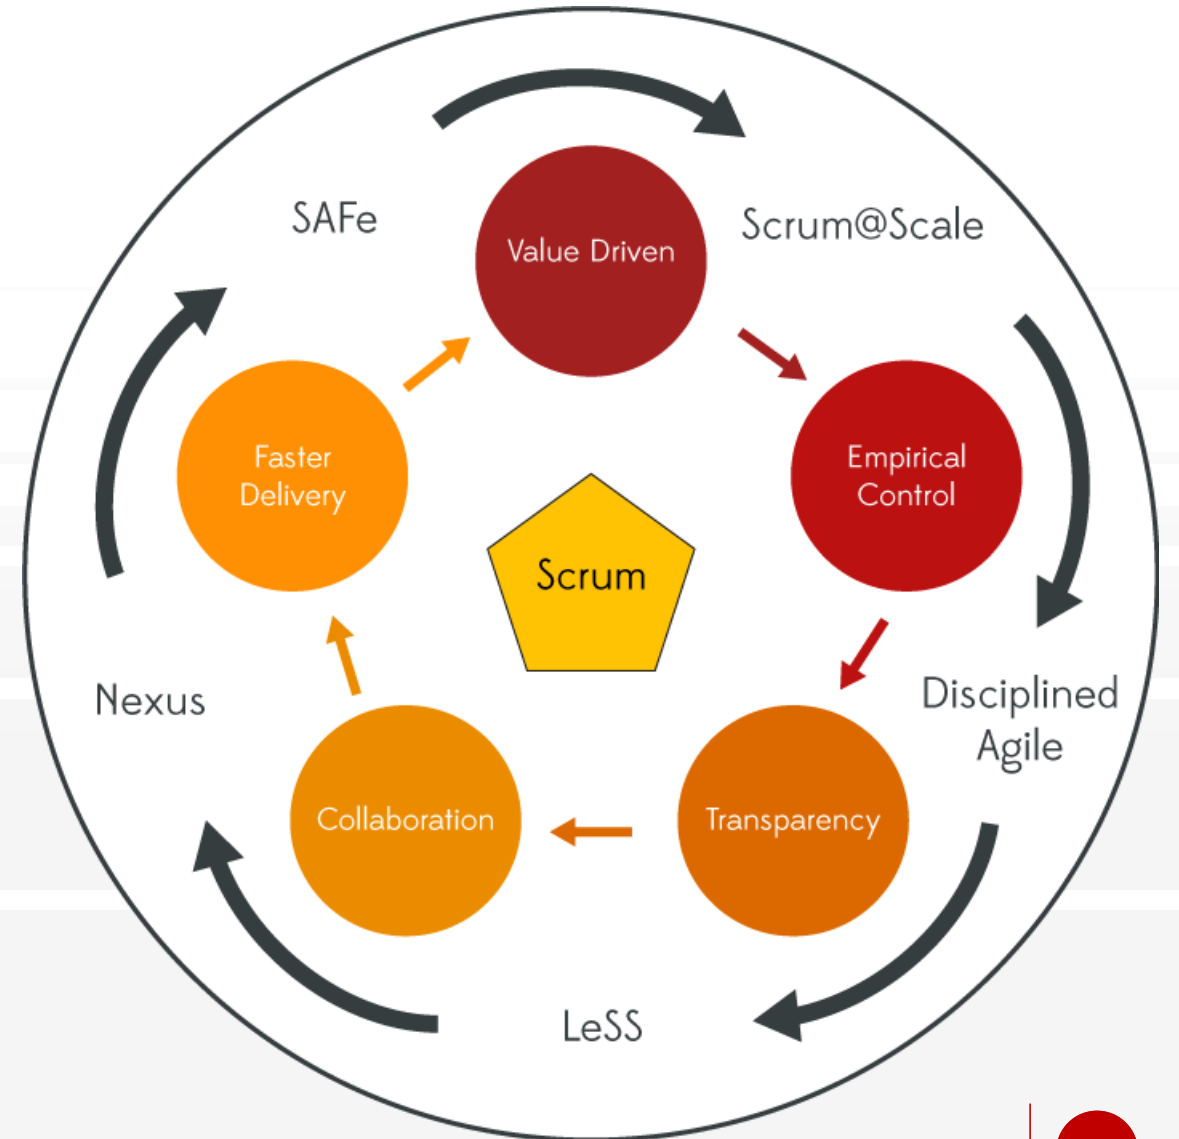

Portfolio management

The Agile Roles
Including the Agile PM

“Work to team” Agile Team Planning

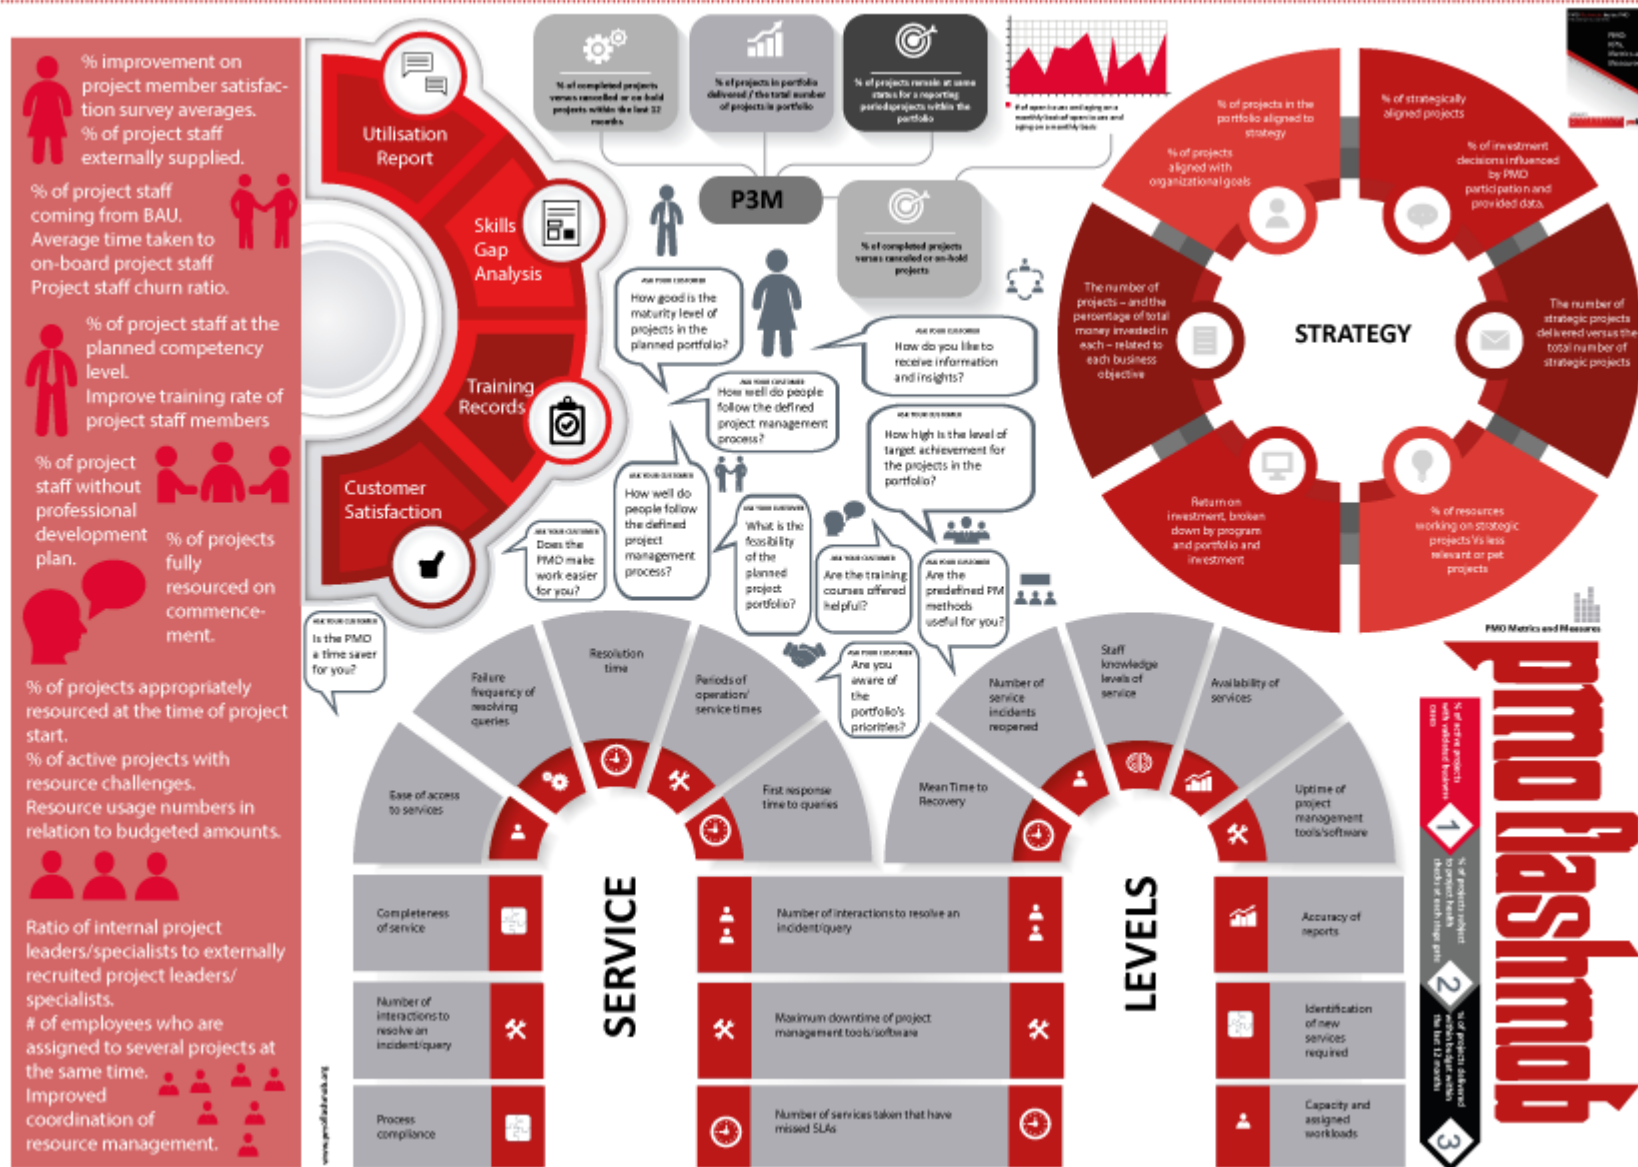

Requirements, Estimation and Planning

Maintaining Control in an Agile Project

KPIs, Metrics and Measures

1. The business goals for business
2. Focusing on the PMO business
3. Time is the focus on the PMO key area

Inside PMO
 PMO:
 KPIs,
 Metrics and
 Measures

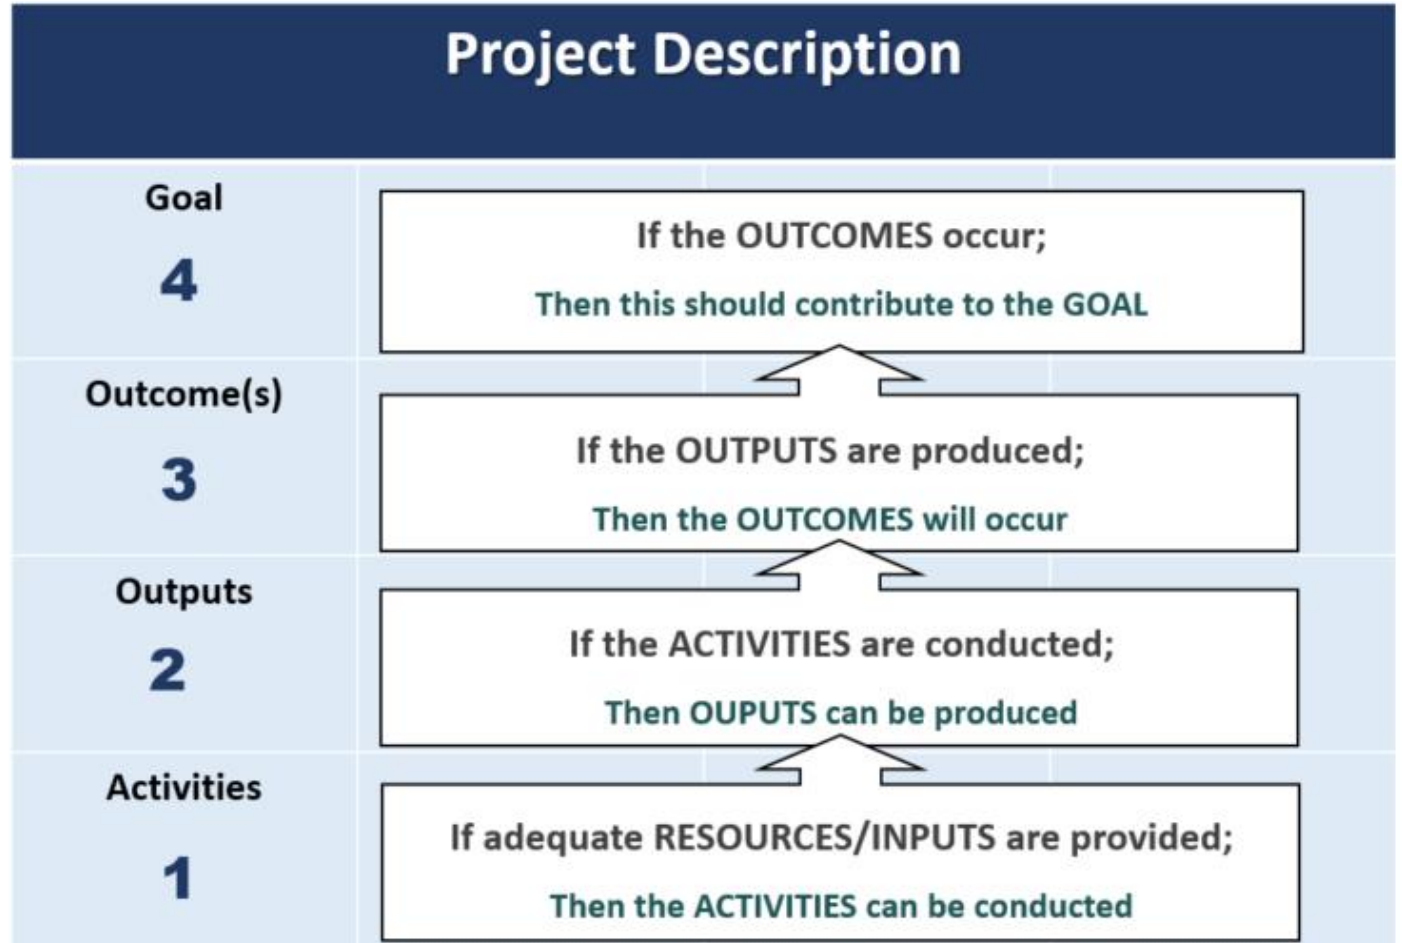

LOGICAL FRAMEWORK

Design a project by identifying how resources and activities contribute to project goals

DESCI **PMD**PRO

all be

tions are

Pushing the Limits Means Having Time to Think

Few PMOs
operate here

Value creation

Typically PMOs
operate here

Efficiency

PMOs set aside resources (time) for **knowledge management, innovation and partnering**

PMOs are focused to help projects complete on time, cost, budget
typically admin and supportive

PMO Conference 2019

5. Good Practice

1. What the textbook says
2. What your principles are
3. What your gut says
4. And your experience

The PMO Principles		
Principle 1: Sponsorship	Senior Management Sponsorship and Engagement	The scope and effectiveness of the PMO is defined by the level of sponsorship and engagement from senior management.
Principle 2: Alignment	Governance Alignment	The structure and function of a PMO is designed to fit within and actively support the organisational governance.
Principle 3: Transparency	Consistent, Accurate, Timely and Transparent Information	The PMO provides consistent, accurate and timely information used to underpin the decision-making process (governance) and transparent validation of the data provenance.
Principle 4: Challenge	Trusted Challenge Partner to Drive Value	The PMO provides objective, rational and constructive challenge at a project, program and portfolio level.
Principle 5: Adjustment	Adaptive Capabilities and Services	The capabilities and services provided by the PMO are set up and then tailored to the organization in which they operate and the people they serve.
Principle 6: Exemplar	Leads by Example	The PMO exhibits appropriate behaviours and expertise when delivering change and demonstrates the value of the project and program processes and system and their contribution to project and program success.
Principle 7: Improvement	Continuous Improvement Mindset	The PMO seeks to improve itself and its contribution to the successful delivery of projects and programs within the organization through continuous improvements of its services.

Your Skills
for an Agile
PMO

Spring 2018

Setting Up a PMO

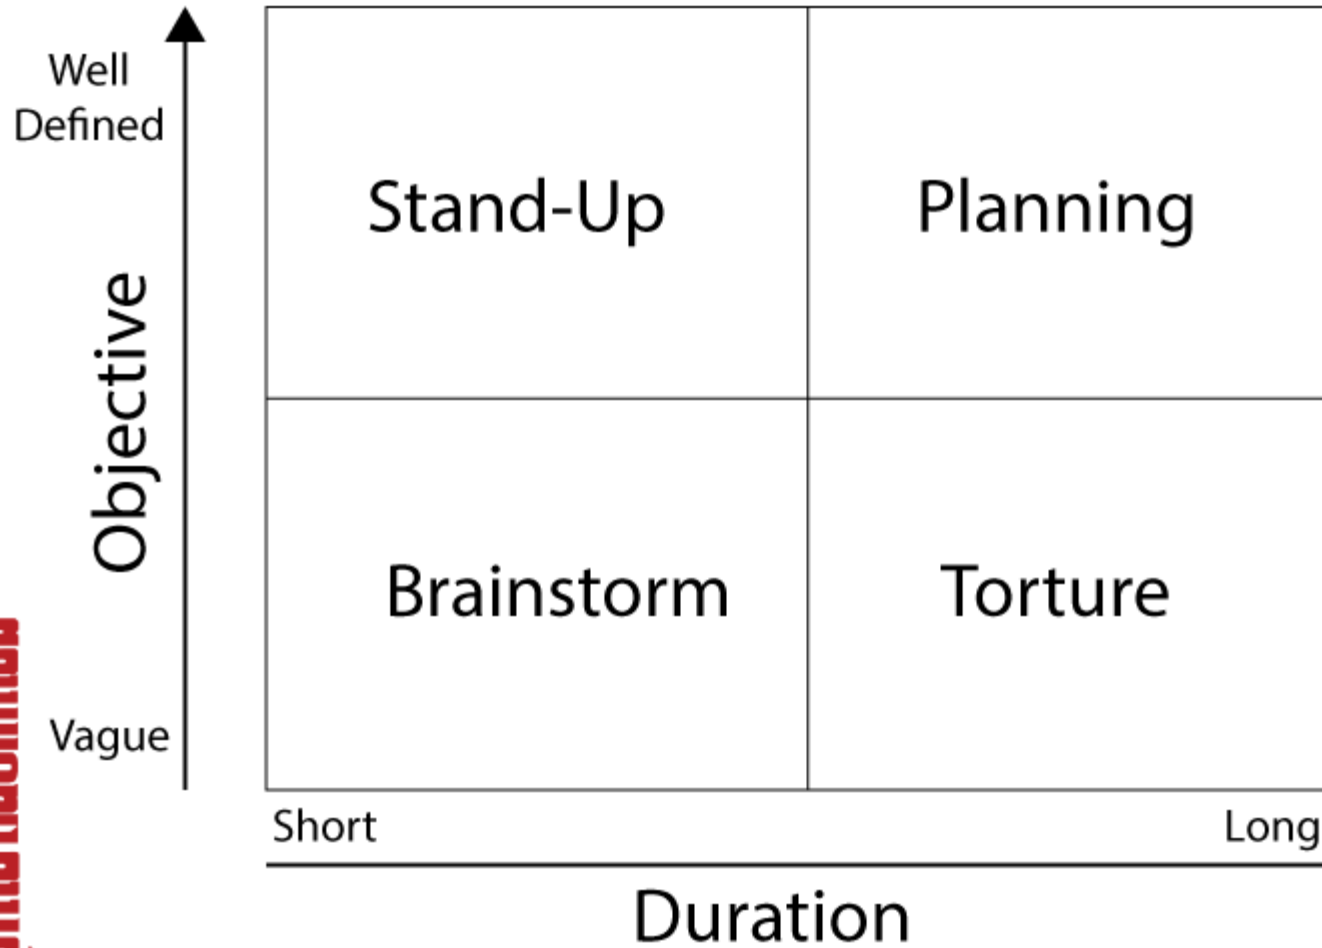

Considerations

Assess Current Situation		
Current method(s) and templates	Current list of projects	Why have projects failed?
What has helped projects succeed?	Who manages the projects?	How engaged are senior managers?
What type of projects do we do?	Where are decisions made?	Where does the money come from?

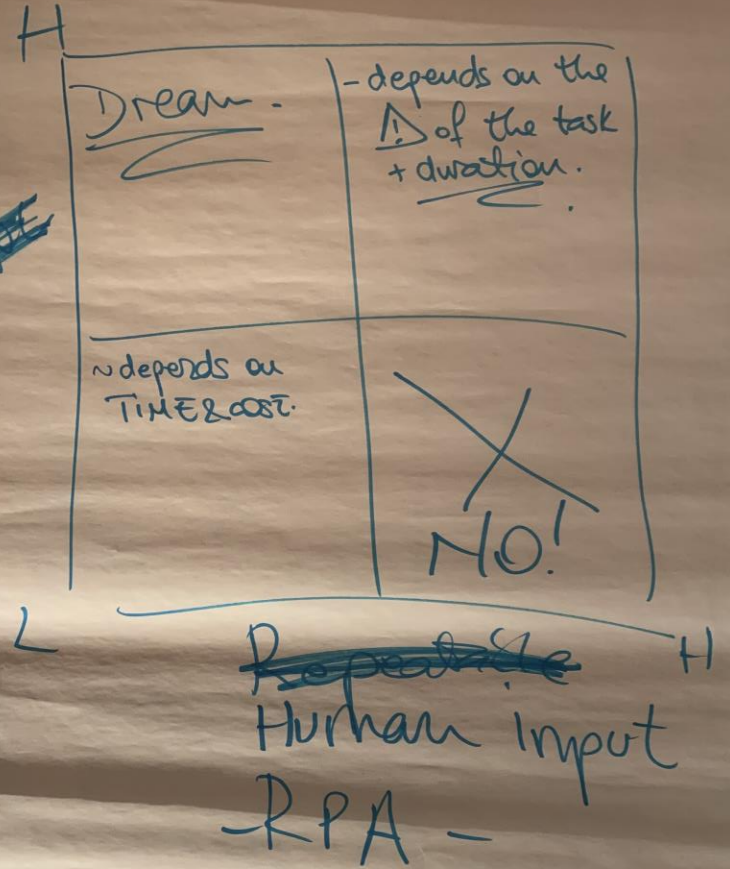

What kind of meeting am I committing my time

pmo flashmob

pmo flashmob

REPEATABLE

Reviewing our implementation + key principles

Looking back what made our transition successful?

We ran our implementation in PPO as the first project fully utilising the system

Change management was crucial

Proof of concept approach

Implement incrementally, core basic function, prove it works, then add one each month...

Understand your audience, tailor your individual change management activity accordingly

Communicate, communicate, communicate...
.....

Listen to suggestions, some will be good and useful to implement now, others can sit on a parking lot

Always look for iterative improvements - we've seen month-on-month improvements in data quality and enhanced decision-making, and we're sequencing projects better

Maintain communications and profile!!

Choose your partners wisely

Finishing Off 2019
